# Be a DRAFTSMAN

Learn at home in spare time with no previous experience

Salaries for draftsmen climbed 23% during the 3 years from 1973 to 1976, according to 1977 survey of 12,000 draftsmen by American Institute for Design & Drafting. Because opportunities vary from one area to another, we ask you to look into the job market in your area and see how many jobs are available in the field of drafting. We supply necessary equipment plus easy-to-master, step-by-step instructions. Our professional staff guides you all the way.

THESE  
**3 BIG DRAFTING KITS\***

## YOU LEARN FAST WHEN YOU TRAIN AT HOME!

For "spare-time" study, there's no place like home! Every spare minute is used one hundred percent for TRAINING. No long drive to class, no parking delays, no time lost "getting ready" or putting things away. When you train at home, your drafting board is always ready, seconds away, for you to take up where you left off. You spend only as much time as you can spare... go as fast as you wish, or take your time. You're a "class of one." There are no rigid class schedules, no one to hold you back, no one trying to "show you up."

Graduation from this course does not insure that you will get a job. To find out how our graduates have done, send for our job placement record. And we encourage you to check on the job opportunities in your area.
